### POVERTY CAUSE OF GIRLS' FALL

Lack of Proper Assistance Starts Them on the Wrong Path, Says Woman Before New York's Commission.

NEW YORK, Nov. 28.—Cases in which the younger daughters of poverty stricken families were forced into lives of immorality when adequate assistance was not given by charitable organizations, when funds were most needed were described by Miss Alice Gannett of the Nurses' Settlement home of this city Wednesday. She was a witness before the state commission which is investigating conditions with a view of deciding whether a pension system for widowed mothers shall be established. She favored state aid with state administration of funds. Others who testified were equally emphatic in assertion that the state should supply and administer relief. Several witnesses opposed the plan. H. P. Vaughn of the University Settlement house and the National Child Labor committee, criticized the methods employed by some of the private organizations. Under the present system of giving aid, he said, many families apply to more than one organization for help and become dependent upon such aid. W. F. Persons, director of the Charities Organization society, opposed the idea of the state entering the charity-giving field but said that if a mothers' pension was established the state and not private organizations should administer the funds.
